Follow-Up Needs Assessment Survey

In order to determine the progress and success of the professional development and technology plans, it is important for all participants to respond to questions regarding their perception of their learning environment and future needs. These results will be helpful in the revision of the plan and in meeting future needs so the faculty can achieve their goal(s).

I have attended the following number of scheduled technology workshops this school year:

- [ ] 0 workshops
- [ ] 1 workshop
- [ ] 2–3 workshops
- [ ] 4 or more workshops (please indicate how many: ________)

Please respond to the following questions using the following scale:

1 = very uncomfortable, 2 = somewhat uncomfortable, 3 = somewhat comfortable, 4 = very comfortable

1. My comfort level using the new hardware (ex: interactive whiteboard) is:

2. My comfort level using the new software (ex: PowerPoint) is:

3. My comfort level integrating the new technology into my lesson plans is:

Please respond to the following questions using the scale:

1 = never, 2 = seldom, 3 = sometimes, 4 = frequently, 5 = always

4. I believe the principal is involved and committed to providing opportunities and support for this project.

5. Fellow teachers, trainers, and/or support consultants are available for help when I need it.

6. Opportunities are provided to observe other teachers modeling the new expected skill in the classroom.

7. Materials and resources are available when I need them.

8. The goals and expectation of the project are clear.
Please respond to the following questions:

9. The most valuable aspects/activities of this project for me have been:

________________________________________________________________________

________________________________________________________________________

10. In order to further develop my skills, I still need:

________________________________________________________________________

________________________________________________________________________
